Asha Rao

Frontend Engineer

Bengaluru, India | +91 98765 43210 | asha.rao@example.com | linkedin.com/in/asharao | github.com/asharao | asharao.dev

SUMMARY

Frontend engineer with three years of experience building dashboards and design systems.

EXPERIENCE

Frontend Developer Jun 2023 – Present

Phenko Technologies Pvt. Ltd. Bengaluru, India

- Built the seller dashboard in React and TypeScript with Next.js, used by 4,000 sellers every month.
- Cut page load time by 38% by splitting bundles and lazy loading charts, measured with Lighthouse over two releases.
- Wrote Vitest unit tests for the checkout flow, raising coverage from 41% to 78%.

Software Engineering Intern Jan 2023 – May 2023

Globex Labs Remote

- Shipped a REST API in Node.js and Express for internal reporting.
- Containerised the service with Docker and set up GitHub Actions CI.

PROJECTS

Realtime Video App | WebRTC, Node.js, Socket.IO | github.com/asharao/video-app

- Peer to peer video rooms with a Node.js signalling server and screen sharing.

Job Tracker | Next.js, PostgreSQL, Tailwind CSS

- A kanban board for job applications with drag and drop and email reminders.
